Course Welcome

Welcome to Military and Strategic Studies. This course has been designed to broaden your knowledge of strategic thinking, while at the same time encouraging you to consider how strategy might apply to modern cyberwarfare and security issues.

You will engage in real-world case studies in which you will refine and develop a past strategy or incorporate new strategies with new problems related to cyberwarfare and security. The main goal of the course is to get you thinking strategically.

Topics

There are four modules that cover the following topics.

1. Foundations of Strategy
2. Modern Strategy
3. Twentieth Century Strategy
4. Cyberstrategy

You are encouraged to read all of the assigned material prior to coming to class and to actively participate in the class discussions. If you have any questions, please do not hesitate to contact me.
